

How do I perform a Silent Installation?

The following commands can be used to perform an unattended installation of Notepad Replacer. When running the installer from the command line, use the /NOTEPAD switch, along with either the /SILENT, or /VERYSILENT switch.

/NOTEPAD="Full Path to Notepad Program"

Specifies the path to the Executable for the program you wish to replace Notepad with
For example: /NOTEPAD="C:\Program Files (x86)\Notepad++\notepad++.exe"

/SILENT

Enables Silent Install option (Shows install progress)

/VERYSILENT

Enables Silent Install option (Does not show install progress)
